Softub COLOURS

Softubs are portable, comfortable and environmentally friendly. Whether inside or outdoors, a Softub can transform your favourite spot into an oasis of relaxation!

Softubs are designed with leisure and luxury in mind and allow for flexibility, individuality and superior performance thanks to their weather resistance, thermal insulation and lightweight materials. The outer casings are made from 'Leathertex' – a material which gives an elegant leather look to our hot tubs whilst being durable and designed to withstand the elements.

The inner basins are made from **Polybond** – a highly insulating foam material which offers both first-rate structural stability and excellent comfort levels for all sitting and lounging positions. Thanks to its innovative design a Softub can offer a haven of relaxation in any location you choose.
